Annual Fire & Smoke Damper Inspection Report

{{FACILITY_NAME}}

{{FACILITY_ADDRESS}}

Inspection Dates:
{{INSPECTION_DATE}}

Job ID: {{JOB_ID}}

NFPA Code Reference

Fire and smoke dampers are visually inspected and functionally tested by qualified personnel. Inspection includes observable condition, accessibility, operation, closure, identification, installation condition and other items within the documented scope.

Note 1: This report records conditions observed at the time of inspection. Final code interpretation remains subject to the adopted code edition, construction documents and the Authority Having Jurisdiction.

Reference standards:

NFPA 80 - Standard for Fire Doors and Other Opening Protectives
NFPA 105 - Smoke Door Assemblies and Other Opening Protectives
NFPA 90A - Standard for the Installation of Air-Conditioning and Ventilating Systems, where applicable

Customer Complaints or Report Corrections

Questions, complaints, or requests to correct inspection information may be submitted to **kl@firedoornation.com**

. Include the facility name, Job ID, applicable Damper ID and the specific item being questioned so the record can be reviewed against the inspection documentation.

This report is prepared for the client identified in the report and documents conditions observed during inspection of the listed dampers. Results pertain only to the specific items evaluated and conditions reasonably observable at the time of inspection. Final code interpretation, repairs, alterations and acceptance remain subject to applicable listings, manufacturer requirements, adopted codes and standards and Authority Having Jurisdiction requirements.

Certification statement: The preparer certifies that this report is a true representation of the inspection information recorded for the listed dampers.
